Worldwide confusion

In homeopathy there is worldwide a big misunderstanding about "the dose". Many schools still teach that the only important issue is to find the simillimum remedy, and that the dose does not matter: Just give 1, 2 or 3 granules dry! Contrary to this belief Hahnemann found out that it is not only the right remedy that matters, but also:

The right Potency – The right Frequency – The right Amount.

Live Case example

The course includes a full live-recorded case example with case analysis and follow up. The case analysis by Dr Luc offers you a great opportunity to learn from his approach to case analysis.

Course moderator, quizzes & certificate

This is an interactive course with quiz questions after each course section. If you need help you can always contact the course moderator who usually will respond within 24 hours.

The course had been accepted for USA & Canada by ACHENA for 12 CEU / CPD* hours.
