Homeopathic Research, Unleash your Superpower.

FEB 20, 2021 11AM EASTERN

20 Febr.

17:00 CET (Europe)

[\(check date time here\)](#)

Dear Homeopaths

Join us for a **panel discussion** with the **world's top homeopathic researchers** working on data collection for the **current pandemic of Covid-19**.

Learn what has been achieved so far, what have been the **most prescribed remedies** and why it is so important for each and everyone of us to join in this extraordinary work - by the end of this presentation you'll be ready to get started and be a part of this historic work!

- **Homeopathic research** has so much to offer you!
 - Understand how other practitioners are prescribing
 - Learn what has been achieved so far with homeopathic data collection in the [clificol](#) covid support project
 - Take advantage of **algorithms** to **repertorize** accurately for patient's symptoms

- Understand how your own **patients** are responding
- Gain **authority** as a practitioner in the eyes of your patients and colleagues

Join us on Feb. 20th

11:00 EST (USA)

17:00 CET (Europe)

16:00 GMT (UK)

[Click here to participate](#)

Together we dive into the data to determine the most prescribed remedies!

- Take advantage of **algorithms & increase accuracy** when you repertorize
 - Discover [Clificol](#) - the free and easy to use data collection software
 - Be exposed to [HAWK Health](#) - an app that helps health practitioners collect and channel real-time health data
 - Learn about the free **Homeopathic Mini-Repertory App**
 - Hear more about the **Pod Project** which supports the collection, recording, analysis and publication of patients own data using **Patient Recorded Outcome Measures** (PROMS)
 - See what the **American Institute of Homeopathy 2020 Data Collection Project** has achieved
-

Meet the Panelists

Dr. Alex Tournier PhD is a founding director of the Homeopathic Research Institute. PhD in physics with a special focus on the biophysics of water and will be speaking about the Clificol data collection project.

Dr. Yvonne Fok MD is a Medical Doctor Msc in epidemiology and biostatistics and Homeopathic Researcher who will be discussing the Clificol data collection project.

Dr. Robbert Van Haselen MD was the Past Deputy Director of Research at the Royal London Homeopathic Hospital and Head of Research for Heel homeopathic Pharmacy, as well as the Past Editor-In Chief of 'Complementary Therapies in Medicine'. Dr. Van Haselen will be discussing how to collect high quality data.

Dr. Lex Rutten MD is a medical doctor, homeopath, and independent researcher. Dr. Lex Rutten has become a global leader on homeopathic data collection. He is the author of 45 Pubmed registered scientific articles, two books on statistics and research in homeopathy and chapters in five books on homeopathy.

Dr. Clare Relton PhD is a Senior Lecturer in Clinical Trials at the Institute of Population Health Sciences at Queen Mary University of London and an honorary Senior Research Fellow in Public Health at Sheffield University in the UK.

Dr. Philippa Fibert PhD completed an MSc in Research Methodology in Psychology; and a PhD in public health. In her studies she conducted a consecutive comparative case series of children with ADHD; and a pilot pragmatic RCT comparing the effectiveness of treatment by homeopaths and nutritional therapists for ADHD. Dr. Fibert will discuss V-HAWK and the POD Project.

Peter Gold is a consultant to the American Institute of Homeopathy. Trained as a biologist, Peter has been involved in healthcare for 30

years, studied homeopathy for 20 years, and served as an advisor to a number of homeopathic organizations, including the National Center for Homeopathy, the Academy of Veterinary Homeopathy, and the Canadian Academy of Homeopathy. Peter will share information about the AIH Data Collection Project
