More information visit: www.LutraShop.com and www.RadarOpus.com

Pricelist for: In the EU: Croatia, Slovenia, Finland, Estonia, Vlaanderen (B.), Netherlands.
Prices will be adapted to local vat.

Not in the EU are: Bosnia, Serbia. Then prices will be excl vat.

RadarOpus is Available as:

- **Available as RENT or PURCHASE packages:** Monthly, or 3, 6, 12, 24 months (see rental pricelist).
- **There are many AddOn titles & modules available** (see the AddOn pricelist).
- **The Synthesis APP** is only available via the Apple or Android-App shops.

Purchase packages

The purchase packages have some benefits and discount. You become the owner, there are **no monthly rent fees**, and on the same computer with the same OS version it will usually work many years without needing to purchase any update. E.g., if you divide it by several years of use, it is the cheapest and most extended homeopathic software available. If needed cheap updates are available during your livelong use. There is a large list of AddOn titles and modules which can be added.

Upgrading of your package is always possible.

Working on several computers
RadarOpus works by default with a softkey on one computer.
To run RadarOpus on two or more computers you need to order a mini usb key.

Help, Manuals and Tutorial videos
There is an extensive RadarOpus manual and many tutorial videos available.
One or two hours additional live training can be requested.

Technical Support & Guarantee

All packages come with excellent support: Unlimited free text support. And with 12 months free LIVE-support (remote computer access) on a "fair use" policy. Zeus-soft guarantees that your software will receive free all needed updates for at least one year for any new OS Windows or MAC OS versions (e.g. if you might buy a new computer). Normally RadarOpus will remain to work for many years on the same OS version, especially on Windows.
There is no yearly license fees are needed. Occasionally a new module or a new Synthesis or other documents come available for very reasonable prices.

Installation

Install on Mac or Windows

From RadarOpus v 2.2 onwards, you can download and install RadarOpus on one computer with Soft-key protection. You can install on Mac or on Windows. If you like to work on two or three computers, then order a Mini USB key* protection, this allows to install and use on several computers if you move the mini usb key to the other computer. (* Ask for the additional costs).

Move your Soft-key license

If you want to move your Soft-key license to a different computer please contact us before you get rid of the old computer.
Soon from RadarOpus v.3.0 onwards you will be able to do this yourself easily by going to a license server website. You can move your license maximum 10 times for free (this will be for most people, for many years to come more than enough), if you need to move more often you will need to pay a small fee. A mini Hard-key license can be moved between different computers an unlimited number of times.

Computer repair with Soft-key license

If your computer needs to be given for repair, it is best to uninstall your soft-key license first from this computer. The tech support will do this for you free of charge. With a Hard-key license there is no need to uninstall your license first.
